

For over 25 years we have focused on quality and innovation in precast and wastewater products. Our filters are perfect examples of where innovation and quality come together. With strong roots in wastewater management and precast, we have spent many years designing and perfecting our filters. We offer four different gravity effluent filters that can handle anywhere from 3000 litres to 38,000 litres. Each design is patented and NSF certified. These same filters are used by our sister company, United Concrete, in every tank installation requiring a filter. No other company can make that claim!

FEATURES	PL-68	PL-122	PL-525	PL-625
Filtration	1.5mm	1.5mm	1.5mm	.75mm
Litres / Day	3000	5700	38,000	38,000
Linear Metres of Filtration	20	37	160	190
SmartFilter Switch and Alarm	N/A	Available	Available	Available
Automatic Shut -Off Ball for Cleaning	N/A	X	X	X
Filtration Slot Technology	X	X	X	X
Extend & Lok Compatible	X	X	X	X
NSF Certification	X	X	X	X
Installed in Multiples for Larger Flows	X	X	X	X
Gas Deflector	X	X	X	
APPLICATIONS				
Residential	X	X	X	X
Residential Multi-Family		X	X	X
Commercial		X	X	X
Grease Traps				X
BENEFITS				
Extend Life of Leaching Fields	X	X	X	X
Keeps Solids in Septic Tank	X	X	X	X
Reduction of TSS & CBOD5	X	X	X	X
